

MINNESOTA CULLINGS.

The News of the Week Throughout the Entire State.

Editor Eastwood, of Heron Lake, has been appointed postmaster of that town.

John Donnelly, a brother of Ignatius Donnelly, the sage of Hastings, died at that place.

Frosts have visited many portions of the state but no great damage has resulted.

The electric street railway in Stillwater is now fully equipped and ready for business.

Mans Boyre broke his leg by jumping from a wagon while the team was running away at Northfield.

Fire destroyed a large quantity of oats and barley, together with a barn, belonging to Chas. Maxwell, at Warren.

Horse thieves have become quite numerous in the vicinity of Mankato. A horse and buggy disappeared from that town.

An infant child of Peter Röllinger of Vermillion was frightened to death by the escaping steam from a threshing.

August Anderson, a Swede, has disappeared from St. Cloud. As he had considerable money in his possession foul play is suspected.

There is an epidemic of bloody flux in Blue Earth City. Twelve children have fallen victims to the disease in that place in the last ten days.

John Loring went to sleep on the railroad track near Prague the other night. A freight came along, and John will never wake up again.

A Norwegian named Erik Kolstad, committed suicide at Marsh Grove, Minnesota, because a young lady refused to marry him. He used "rough on rats."

While hunting near Red Wing William Spriggle of Bay City, Wis., received the full charge of a shot gun in one leg, causing injuries which may disable him permanently.

Alex Ranskin, a wealthy farmer living near St. Cloud, has become violently insane. He imagines himself to be God, his wife the mother of God and his only son Jesus Christ.

William Wiltse, a farm hand, while drunk, made an assault with a knife on Iver Genna. He was bound over to wait the action of the grand jury at Moorhead. Genna will recover.

Work will begin at once on the Duluth electric railway, and the road will, when finished, be the longest in length in the world, being 7.3 miles in length, with a rise of 600 feet.

Leon Michowski of Winona, made a toy cannon out of the muzzled and touched a match to it. Contrary to the general rule regarding loaded weapons, the cannon went off and Leon was instantly killed.

A man named Lambertson stole 100 bushels of wheat from Burke Bros., of Elsworth. He sold the wheat in Little Rock and bought a gold watch, with which he now whiles away the time in Worthington jail.

Godfrey Fisher, of Neche, is confined in the Bathgate jail for shooting Fred Cain. He asserts his innocence and claims he can prove an alibi, but the justices are against him, and he will probably be convicted of murder.

A young Indian named McLeod residing near Shakopee was found near Hamilton station on the Omaha railroad track. The train had evidently run over him and his body was somewhat mutilated. He died soon after being found.

While Mr. and Mrs. G. Churchyard, of Dodge Center, were attending the state fair in St. Paul, their two children, aged 5 and 3 years, which were left alone, crawled into a lot in the barn, set the hay on fire and perished in the flames.

The dead body of a man named Strane was found in a swamp in Oshkosh county, in a badly decayed condition. The coroner's jury brought in a verdict that Strane came to his death by being struck on the head with a blunt instrument in the hands of parties unknown.

Workmen engaged in digging sewers in the streets of St. Paul ran across an extensive vein of peat which is said to be fully as high in quality as that of the peat bogs of Ireland. Large quantities are being stored away for fuel in the hands of their owners.

Mrs. Wright, of Luverne, was seriously burned about the hands and face while wrestling with a gasoline stove which had caught on fire. The plucky woman succeeded in carrying the stove from the kitchen to the back yard, thereby saving her household goods and averting a considerable loss.

The team of Ferdinand Selike became frightened and upset the wagon containing his wife and two small children at Rochester. They were all under 37.944 are in British Columbia, 20,368 in Manitoba and the Northwestern Territory, 17,700 in Ontario, 12,445 in Quebec, 8,900 in Attabaska, 7,000 in Saskatchewan, 4,010 in Eastern Prince's Land, 2,000 on the Arctic coasts, 2,145 in New Scotland, 2,038 in the Peace River district, 1,594 in New Brunswick, 1,000 in the interior of Labrador, and 319 in Prince Edward's Island.

FOR THE FARMER.

Parasites.

He is wise who profits by his own experience, but he is wiser who also profits by the experience of others.

Signing your name before a stranger is not "bread cast upon the waters," but it is very sure to "return after many days."

Poor butter and poor cheese, for the low quality of which the maker cannot account, may sometimes be traced to impure water.

Constalks in the silo occupy but one-fifth the space they do in mow or stack; this is a very important consideration in favor of the silo.

It ensilage is no better feed than dry stalks still it has much to commend it on the score of economy, it is more easily and cheaply stored and fed.

How about the supply of road dust for hen house, cow stable, privy, etc.? As a deodorizer, disinfectant and absorbent it can be regarded as all most invaluable if it were not so plenty and so cheap.

In reply to a request for a report on the condition of his crops, from a wheat speculating firm, a farmer writes: "The Lord and I are in partnership this year; it is nobody's business what or how we are doing."

Farmers in Central Missouri, according to Colman's Rural World, nearly abandoned tobacco-raising.

During very warm weather the pigs will suffer if they have no fresh water and shade. Some breeds of hogs, such as the Yorkshires, have very smooth skins, and it will benefit them to give them a good washing occasionally.

Cleaning the wheat and keeping the offal at home to be fed to sheep and chickens is a short road to risk on pot-pies, fresh eggs, choice mutton, and downy fleece, and innumerable little household comforts and luxuries. Try it once.

The pig and the cow in conjunction make a great pair, as co-operators in the household. The cow gives milk, and the pig gives manure, and if they would not make a stylish team but they can nevertheless help the farmer towards prosperity at a very gratifying pace.

More farmers should possess the art of nicely slaughtering a lamb, calf or pig, so that it will make an enticing article of trade when he takes it to the nearest town or city. And more farmers should have such animals to slaughter.

An Ohio court has decided that the owner of a dog which sprang into the road and caused a team of horses to run away, crippling themselves, bruising the driver, and destroying the carriage, was responsible for all damage done. This is a just decision.

No class of citizens keep a sharper eye on the country's crops, none know better the localities of the best yields than the sharper whose business it is to devise schemes for swindling farmers. The country will soon be at them, and where the crops were best there will they be thickest.

No succulent food is more greedily eaten by pigs at any age than beets. They may be fed any time from the first thinnings during the growing season to the fully grown roots in winter. They are especially valuable as a part of the winter food for breeding sows, and some beets should always be saved for that purpose.

J. F. Ryder, of Franklin County, Pa., writes to the Weekly Tribune that ten or twelve years ago he transferred the bell from a sheep to a young dog which manifested great fondness for sheep's blood, and it broke up the habit completely. Why not, he asks, make it compulsory that every dog wear a bell, and it caught without it that he shot?

A scythe will pull the buckwheat together in bundles that will need no binding except a slight twist of straw which will hold the bundles together by itself on its butt. When dried by cold weather, the fall on a smooth floor will take out the grain better, cheaper and nearly as quickly as it is done by threshing machines. This is the old fashioned way, and it is as good as any.

In reply to an inquiry, the American Cultivator says that a little tar on shoes' noses in summer is very necessary to protect them from the fly that lays the egg that produces grubs in the head. These flies often feed on the shoes' noses, and when they thrust their noses to protect themselves from the attacks of the fly, but it is far better to tar the nose, and thus save them from trouble.

We do not understand why cheese is not more generally used as food by all classes. In England it largely takes the place of meat, which it surpasses, notably because of its cheapness, but its superiority. The poor quality of much cheese offered in markets is probably the reason for the popular prejudice against it.

Sometimes when a heavy grain crop has been grown the field is more easily prepared for wheat seeding by burning over the stubble. A few furrows should be plowed next to the stubble, and the seed should be sown in the furrows, thus making it safer to sow wheat after wheat.—An American Cultivator.

A Cheeky Lover's Scheme.

"I was going with a girl who made my heart stand still the first time I met her. Dear, dear how I loved that girl! Do you know, I had it so bad I couldn't eat, and the worst of it all was I never had a chance to tell her about it. Very true, time met her something happened, and she went the way. After a while I got tired and thought I'd try a bluff game, so I went and got a marriage license, got shaved, dressed myself up, and after supper I took a stroll in the moonlight. She was glad to see me, and as luck would have it, no one came to disturb us. Pretty soon I thought it time to play my trump card, so I asked if she'd marry me. She said she couldn't think of it. It hadn't occurred to her."

"Well, all right," I said, and took the license out of my pocket.

"What is that?" she asked suspiciously.

"That's a marriage license, and if you won't marry me I'm going to tear it up."

"Oh, well," she said, "don't go and tear it."

"That settled it. I didn't tear it and didn't have to."

THE HOUSEHOLD.

Hints for Housewives.

Ammonia will frequently restore colors that have been spoiled by acid.

Old potatoes are improved by soaking for awhile in cold water before boiling.

Folds of newspaper upon a tin or earthen plate makes a satisfactory receptacle for the oil can.

If it is desirable to freshen salt fish quickly, place it in plenty of cold water the flesh side down.

Suspend a small bag of charcoal in the cistern. It will have a purifying effect upon the water.

Ceilings that have been smoked with a kerosene lamp should be washed off with soda water.

Silver may be kept bright for months by being kept in an air-tight case with a good-sized piece of camphor.

Spare your temper by inverting the top of the fruit jar for a minute in hot water before attempting to remove it.

The haunts of black ants are less attractive to the bothersome insects when powdered borax is scattered over them.

It is very seldom that the proper stress is laid upon the thorough ventilation of the bedrooms and the arranging of the bed.

Advice from the medical attendant respecting diet, exercise and management in the sick room is often far preferable to medicine.

"Never scold your wife for crying," says Dr. Agnew. "So long as a woman can weep she will never do anything desperate, and she will have much more patience than a dry-eyed woman."

The labor of ironing is diminished when clothes are well shaken before hanging out, especially when a wringer removes the water. Fringed articles need special attention in this particular.

The French water-ices are sometimes made with a syrup of sugar and water boiled until it forms a fine thread between the thumb and forefinger. This syrup contains four times as much sugar as water.

Miss Frances Graham French, of Washington, holds the position of linguist and translator in the bureau of education, and is engaged in the work of classifying 20,000 foreign books in twenty different languages.

One way of exterminating red ants is to moisten a sponge with water, scatter sugar over it and place on a shelf frequently by the pestiferous mites. It will soon be densely populated; then is the time to drop it into hot water.

The children are now in their cradles who will live to see pauperism and drunkenness swept away, like the hogs that hang over us for weeks till a strong breeze comes, and smite them with the scimitar of light and they are gone.—Mrs. Livermore.

A good work is being done in some of Boston's suburbs by women's societies supporting industrial schools during the long summer vacations. These schools generally employ girls alone, and teach sewing and domestic arts, and in some cases fine cooking.

There is often waste of juice and sugar during the process of baking fruit pies. By rolling out an under paste an inch larger than the plate, and turning it over the fruit when the pie is filled the loss will be prevented. Wet with cold water before laying the top crust.

English girls are to be taught laundry work besides cooking in the boarding schools. A committee of the London school board and the city and guilds institute have just completed arrangements for making an experiment in this unique branch.

There was more fairness and common sense in the ruling of a Southern official, who, being asked, "Is there any law allowing a woman to hold such an office?" answered, "Is there any law forbidding a woman to hold such an office?"

An attractive pin cushion is made by stuffing three silken sacks firmly with bran or any other material and tying them together round the necks with a bow of moire ribbon. The sacks should be six inches high and about four inches in width and made of some pretty shade of pongee silk. They may be all of one color or three different shades. A light fall of cream lace falls from the ribbon bow.

It is true economy to adopt real neatness in the laundry room. Among those may be classed a good washing fluid. An ounce of muriate of ammonia, one ounce of salts of tartar and a box of potash dissolved in a gallon of boiling water produce a cheap and efficacious fluid. Soak the clothes for an hour or two in lukewarm water containing half a cupful of the liquid, and add the same quantity of water in which the clothes are boiled. Let the rinsing water be abundant.

A drapery for doors or upper parts of windows to cover stained glass or to serve as lambrequin, is made of seine, a fishing rod used in place of a cornice pole; the edge of the seine is finished with a cord of heavy rope; tackle and blocks are used for draping, the rope being fastened to a hook in the center of a coil of rope measuring ten to fifteen inches in diameter, which is fastened to the corner of the doorway or window. It should be arranged in folds across the top and then allowed to hang from one side.

Hotel Registers.

"There is a very mistaken idea about the register books that lie up on the counters of hotels," said a prominent hotel man recently.

"They are not by any means open to the public as a right, as is generally supposed. It is simply as a matter of courtesy that we permit any one to look at them, as we are not obliged to show them to the public. If a person calls at the house in order to see a friend or find out if he is stopping there, it is his place to inquire at the office that is the only proper way. Our books are always destroyed now as soon as they are full. Hotel keepers have been subjected to much annoyance by being frequently ordered to produce them in court as evidence in divorce and other cases. In order to avoid so doing we always destroy our books, and can say to the court that we have no record of any such parties as the one in question having been at our house at any time."—Philadelphia Inquirer.

Be Good to Tramps.

From the Philadelphia Record.

A needy man asked for dinner at a farm-house in Harborside, near Erie several days ago. The lady snappily refused him, but her little daughter pleading for him she relented, and after dinner the man went on to the next farm, where he wrote a letter to the snappish lady revealing the fact that he was her brother, supposed to have been drowned thirty years ago, and in closing for the child a roll of new \$10 notes.

A CARELESS female visitor, who was aroused in her room at the Arlington Hotel in Potomac, Mich., by an alarm of fire, took time to dress and pack her trunk before she ran down stairs, but forgot to wake up her husband.

MORE FUNNY WORK.

Farming is one of the best occupations for a young man. Even cabbage-culture will enable a struggling youth to get a head.

"Doctor," said a despondent patient, "I believe I'm going blind."

"No," said the doctor, impatiently, "that's all in your eye."

The man who tries to argue a woman into loving him may succeed, perhaps, but he must have a long life and no rival.—Somerville Journal.

"And how is your husband, Mrs. McCarty?" "He is as hard a worker as ever." "O, John ain't worked a day for seventeen years." "Is he incapacitated?" "No, ma'am he's dead."

A Washington school teacher broke one of his ribs one night recently, while turning over in bed. The scholars, next day, held a meeting and tendered the turnover a vote of thanks.

In Washington a man can drop a nickel in a slot and have his handkerchief perfumed. The proprietor of this little device makes enormous profits, giving only one cent for five cents.

Clarissa—"Oh, Lucia, I've been looking at your lovely wedding presents. There are seventeen full sets of dishes among them." Lucia—"I shall need them all, as I expect to keep a girl."—Omaha World.

"When your practicing friend across the way has learned how to play the cornet he will entertain the whole neighborhood," said Mrs. Brown. "Yes," said Mrs. Brown, "that by that time there won't be any neighborhood here."

Father—"My son, you must not dispute with your mother in that way. Boy—but she's in the wrong. Father—"That makes no difference. You might as well learn, my child, once for all, that when a lady says a thing is so, it is so, even if it isn't so."

"Then, my dear, you have really made up your mind to marry a widow?" "Certainly." "And does he never talk about his first wife?" "I should like him to try. If he did I should at first begin to tell him about my third husband."

"Yes," said Fenderson, "my new book has received golden opinions from all sorts of people." Fog—"Why do you think the press of the country had been entirely silent about it?" Fenderson—"The press said, 'Silence is golden, you know.'"—Boston Transcript.

The man who sits on a bent pin can answer the conundrum: Where do the pins go to?—Ex. Well, we don't think he can. There isn't one in a hundred who won't swear the pin is under his foot.

A few days ago two men were in Smith's barber shop. One had red hair and the other was bald-headed. Red Hair (to bald-headed): "You were not about when they were giving out hair?" Bald-headed: "Yes I was there, but they only had a little red hair left, and I wouldn't take it."

Among the replies to an advertisement of a musical committee for a candidate as organist, music teacher, etc., was the following:—"Gentlemen! I noticed your advertisement for an organist, either for lady or gentleman. Having been both for several years, I offer you my services."

Once a lady who had been disappointed in love wrote with a diamond ring upon a window pane the following line: "God made man upright and he—"

Young Mrs. Greene—"Henry, dear, do you think so much bread and molasses is good for Harry?" Young Mr. Greene—"Certainly it's good for him. Don't you know bread is the staff of life?" Young Mrs. Greene—"Yes—yes—but so much molasses you know!" Young Mr. Greene—"Well, what of it? He doesn't eat the molasses, he leaves that on the door-knob."—Puck.

Mrs. Billus (while giving Mr. B. a certain lecture at a late hour):—"Hark! What's that? I hear a noise in the cellar. John, I'm sure it's a burglar!" Mr. Billus (getting out of bed):—"I'll fix him." Mrs. Billus—"What are you going to do, John?" "You haven't your revolver."

Mr. Billus (desperately):—"I'm going to open the doors all the way to the cellar so the infernal scoundrel can hear you talking!"

Jinks (at a party):—"You never met my wife, did you?" Blinks—"Wife? I didn't know you were married. Is she in the room?" "Yes."

"Well, then, she must be that beautiful creature over there." "By George! You hit it the first time. She's the most beautiful woman in the room, isn't she?" "Yes, indeed." "Well, she is your wife. You know her?" "Yes, indeed, she is the most beautiful woman in the room, and people always marry that way."

The Cautious Prophets.

Down in Georgia an old darkey calling himself the prophet Daniel induced three young men to walk into an iron furnace. They did it as easily as anything you ever saw done. But coming out again was part of the feat that caught them cold, and they stayed in. The queer thing about these religious antics is that God never tells them to do anything of that sort themselves; he always tells them to get somebody else to do it.

However, the stock of fools in the world is always large. We suppose you might burn up a couple of hundred of them every day for six weeks, and then find a good market for any kind of an elixir you could advertise.—Burdette in Brooklyn Eagle.

IN A MINING CAMP.

Unconventional Scenes on Streets.

Crowded by Miners Searching for Pleasure.

A Trip to a Silver Mine and Through the Adjacent Mill.

Faro, the Form of Chance Which Fascinates the Tolerers in the Earth.

For two or three hours the locomotive had panted as it laboriously climbed the heavy grades and dragged the train after it. Then it reached a broad mesa, and as it passed at the foot of the mesa it was met by a crowd of miners, who, in a variety of speed, which was obliged to lessen as the train reached a spur of the mountains. The track wound around points and back in the gulches and at times, after traveling nearly a mile, in point of latitude or longitude was only a few hundred feet from its starting point.

A Tree George Washington Marked.

Before arriving at Capon, about half a mile from the spring, a narrow way is seen leading directly across the road in one direction toward Winchester, in the other toward the distant Ohio. This way was made by Gen. Braddock to facilitate the march of his army during the last French and Indian war which preceded the revolution. Washington was then on Braddock's staff, serving with the rank of colonel. A tradition is carefully preserved that he and Braddock drank the beauty spring, which spring was well known to the Indians, and deemed by them to have great medicinal properties, especially for rheumatism. The Indians were supposed to be quite fond of water in its waters on account of the silken character, which it imparts to the skin. But the great curiosity of Capon is the tree, the only tree remaining, which was planted by an accident in the Washington when he measured the Fairfax estate for his ancestor, Capt. Vale, the proprietor of the springs, on whose lands it has stood for centuries.

The tree is a small one, and

this city from Plover, Wis., on Sat-
urday evening and will spend the fall
and winter here.

Miss Emma Schoemann, a sister
of Mrs. Cohen and Mrs. Patek, of
Chicago, is visiting relatives and
friends in Brainerd.

The new bank will be opened in
part of the building occupied by
Wm. Hack, next door to the post-
office, instead of the room just west.

Olive Russell, wife of Plummer
Russell, died on Saturday of diphtheria.
Deceased was 36 years old and was
highly respected by a large circle of
friends.

Felix Graham wears a decidedly
more cheerful appearance since Mrs.
Graham returned from her visit to
Canada. She has been absent about
two months.

The Brainerd fire department ac-
companied by the Third Regiment
Band went to Little Falls yesterday
to participate in the annual tourna-
ment of the department of that city.

The Journal editor has no reason to
be grudge to our non-transferable
caricature. We would rather not
collect another subscription this year
than to go through the same opera-
tion again.

In consequence of the arrival of a
son at the residence of J. J. Kennedy
on Monday the intimate friends of
the father have been enjoying fragrant
Havanas. John's happiness knows
no bounds and he is receiving the
congratulations of his acquaintances.

Ed. Hazen returned to Brainerd on
Monday from an extended trip
through the Eastern states. During
his travels he met several former
Brainerdites, among whom was W.
H. Witt, H. M. Barron and Dr. Par-
sons.

Sheriff Spaulding accompanied
John Wenden to the Insane Asylum
at St. Peter on Monday night. The
man was 43 years of age and lived at
Mill Lake where he has a family.
He was examined before the Probate
Court by Drs. Camp and Rosser.

An Invitation.
Ladies wishing to examine our
cloak stock are cordially invited to
call, as we take pleasure in displaying
these goods. Our stock is all in, and
in shape.

HENRY I. COHEN.

Frank French, who is serving a
term in the reform school, was brought
to Brainerd as a witness in the Tiff
trial, but as the trial was postponed
he was taken back. French was one
of the boys who was connected with
taking the scrap iron from the North-
western Pacific.

Mrs. D. W. Whitford was quite
badly injured by a driving horse on
Saturday evening last. The animal
which had heretofore shown no
vicious tendencies bit her on the lip
and for a time it was feared that
surgical aid could not save the member.
She is now recovering and only for a
scar her face will not be disfigured.

Fred Wieland with his wife and
two children, arrived at Mr. Gil-
ed from Brainerd, Minnesota, Sat-
urday night, and will for some weeks
be with their Buckeye relatives. Fred
is still engaged in the printing busi-
ness, holding a half interest in the
stead old Brainerd DISPATCH.—Mt.
Giesed, O., Register.

A son of Mr. and Mrs. Geo. Keough
died on Saturday evening, Sept. 21st,
of spinal disease. The little fellow
was an exceedingly bright child and
was five years old at the time of his
death, the prime cause of which re-
sulted from an injury received when
the child was an infant. Funeral ser-
vices were held on Monday afternoon
from the Catholic church, Rev. Fr.
Watry officiating. The bereaved
parents have the sympathy of a large
circle of friends.

Sweet, Orr & Co.'s Overalls and
Jackets at Geo. N. Day's.

Geo. Perley arrived in Brainerd
from Kansas City yesterday to visit
his children who are stopping with
their aunt, Mrs. A. E. Veon.

Justice Fields passed through
Brainerd on Monday last on his way
to Massachusetts. This is the gentle-
man on whom Judge Terry made the
assault in California recently and
lost his life in consequence.

Wm. Mahood met with quite a
serious accident at the shops yester-
day which will lay him up for some
time. He was working near a circular
saw and in some manner his thumb
came in contact with it and the mem-
ber was nearly severed from his hand.

Some of the Brainerd boys who at-
tended the tournament at Little Falls
yesterday received quite a shaking up
and had a narrow escape from serious
accident. The driver of the open
bus in which they were returning
from the fair grounds was driving at
a furious rate of speed and in turning
a corner he over-turned the wagon,
throwing the boys right and left
among a lot of oak stumps and trees.
Among those who were bruised was
Henry McGinn, L. W. Burrell and
John Lingnau. Mr. McGinn was un-
conscious for some minutes, he having
collided with a tree in his flight across
the commons. It is the greatest won-
der in the world that some of the
party was not seriously injured.

The District Court.
The jury cases were finished on
Wednesday and the jury were dis-
charged, but court is still in session
with court cases on trial which will
probably be finished to-day.

In the case of Carlson vs. Northern
Pacific road for damage for not being
allowed to travel on a certain ticket
bought of a scalper the jury returned
a verdict of \$225 for plaintiff.

In case of Jos. Koby vs. Benj.
Lovely, an action to recover on a
binder sold defendant, the plaintiff
was awarded \$150.

The case of A. L. Hoffman vs.
Northern Pacific road, in which the
plaintiff sued for \$1500 for being re-
fused passage on a ticket bought of a
broker was on trial Monday and Tues-
day. The jury awarded Mr. Hoffman
\$300 damages.

In the case of the State vs. Matt.
Schroeder, indicted for selling liquor
to Indians, the defendant was ac-
quitted. This is the second action of
the kind ever brought in this county.

The case of Joseph Tiff, indicted
for receiving stolen property, was
continued until next term on account
of not being able to secure important
witnesses, and the bond was fixed at
\$500.

Wm. Crummet came into court
Monday afternoon and withdrew the
plea of not guilty to the charge of
robbery, and on consent of the county
attorney pleaded guilty to the charge
of grand larceny in the second de-
gree.

T. Holdship, who was indicted for
indecent assault, pleaded guilty to the
charge on Wednesday.

New Hardware Firm.

W. J. & H. D. Powers have some-
thing to say to the readers of the
DISPATCH this week. They have
opened a complete stock of hardware
on Front street, next door to Loxey &
Dean's, and are prepared to furnish
goods of that description to the
Brainerd public. The stock is all new
and an inspection is invited. A com-
plete line of tools, guns and ammu-
nition, cutlery, etc., is also among
their large variety of goods. A com-
petent tinner is in charge of their
jobbing department, and work will be
guaranteed to be first-class in all par-
ticulars.

Hymen's Capers.

Chester Atherton and Miss Carrie
Martin, both of this city were united
in marriage at the residence of Mr. F.
C. Hollenback, Bismarck, D. T., on
Tuesday of this week. They will re-
turn to Brainerd on the noon train,
Saturday, and will be tendered a re-
ception at the residence of the groom's
parents on Main street to-morrow eve-
ning. The couple are well and favor-
ably known in this city, the groom be-
ing engaged in the flour and feed
business on Fifth street, in connection
with his father, and is a young man of
good standing and highly respected
by his associates. The bride is a
charming young lady who has many
friends in Brainerd and elsewhere.
They will go to housekeeping imme-
diately at the corner of 7th and
Boulevard streets.

Mr. E. W. Kaley, of Hamline, and
Mrs. S. A. Gleason, of this city, were
united in marriage at Pipestone on
Tuesday of this week. The contract-
ing parties are both well known in
this city, the bride having resided
here for several years and the groom
was for some eight years employed
at the N. P. shops, but for the past
three years has been at Como where
he has a lucrative and pleasant po-
sition. The home of Mr. and Mrs.
Kaley will be at Hamline where a fine
residence has been built by the gentle-
man during the past summer. The
DISPATCH extends congratulations.

Mr. Alvin Eastman, of this city,
and Mrs. Libbie McGaffey, of Anoka,
were united in marriage at the latter
city on Monday last. The groom is a
gentleman of wide acquaintance in
this city and in other portions of the
state and the bride is a lady highly
respected in the locality from which
she comes. Brainerd will be their
future home as Mr. Eastman is fore-
man of the Mississippi and Rum
River Boom Co., which have their
warehouses located at this place.

The wedding of Mr. Rowland
Arundel and Miss Emily Walters is
announced to take place at the Epis-
copal church on Wednesday evening,
Oct. 9th, with a reception immediately
afterwards at No. 3, Seventh street.
The invitations have been issued.

Wm. Brown, of this city, and Miss
Nellie Crandall, of Shell Prairie,
were united in marriage by the Rev.
E. J. Brownson, on Saturday evening
at the Baptist Parsonage.

Parlor suits and parlor furniture at
a discount at C. M. PATEK'S.

The Gun Club.

The regular shoot of the Gun Club
on Tuesday was slimly attended, the
scores made being as follows:

NAME.	Number Broken	Number Missed	Number Shot at	Average Per Cent
Bain	111	10	121	91.7
White, I. U.	100	20	120	83.3

Keop, J. H.	30	89	119	25.2

Secretary Bain has made out a
table showing the average of the
different shooters during the summer
and we publish a synopsis of the re-
port below. The average is deter-
mined according to the number of
birds shot at, and while it looks at
first glance as though a shooter should
not get as much credit for shooting
only once, even if he made a good
score, the figures are so arranged as
to give a general idea and it can easily
be determined by looking at the num-
ber of birds shot at how much credit
the man is entitled to.

W. J. & H. D. POWERS

Would respectfully announce that they have just

OPENED

In Brainerd on Front Street, near Eighth, a Complete Stock of

Hardware, Stoves, Tinware,

MINNESOTA CULLINGS.

The News of the Week Throughout the Entire State.

Editor Eastwood, of Heron Lake, has been appointed postmaster of that town.

John Donnelly, a brother of Ignatius Donnelly, the sage of Hastings, died at that place.

Frosts has visited many portions of the state but no great damage has resulted.

The electric street railway in Still water is now fully equipped and ready for business.

Mans Boyer broke his leg by jumping from a wagon while the team was running away at Northfield.

Fire destroyed a large quantity of oats and barley, together with a barn, belonging to Chas. Maxwell, at Warren.

Horse thieves have become quite numerous in the vicinity of Mankato. A horse and buggy disappeared from that town.

An infant child of Peter Kollinger of Vermilion was frightened to death by the escaping steam from a threshing.

August Anderson, a Swede, has disappeared from St. Cloud. As he had considerable money in his possession foul play is suspected.

There is an epidemic of bloody flux in Blue Earth City. Twelve children have fallen victims to the disease in that place in the last ten days.

John Loring went to sleep on the railroad track near the other night. A freight came along, and John will never wake up again.

A Norwegian named Erik Kolstad, committed suicide at Marsh Grove, Marshall county, because a young lady refused to marry him. He used "rough on rats."

While hunting near Red Wing William Spriggle of Bay City, Wis., received the full charge of a shot gun in one leg, causing injuries which may disable him permanently.

Alex Ranskin, a wealthy farmer living near St. Cloud, has become violently insane. He imagines himself to be God, his wife the mother of Christ, and his cow the Virgin Mary.

William Wiltse, a farm hand, while drunk, made an assault with a knife on Iver Genna. He was bound over to wait the action of the grand jury at Moorhead. Genna will recover.

Work will begin at once on the du luth electric railway, and the road will, when finished, be the longest in-line railway in the world, being 7,300 feet in length, with a rise of 600 feet.

Leon Milchowski of Winona, loaded a toy cannon up to the muzzle and touched a match to it. Contrary to the general rule regarding toy cannons, the explosion did not kill him and Leon was instantly killed.

A man named Lambertson took 100 bushels of wheat from Burke Bros., of Elkworth. He sold the wheat in Little Rock and bought a gold watch, with which he now whistles away the time in Worthington jail.

Godfrey Fisher, of Neche, is confined in the Bathgate jail for shooting Fred Cain. He asserts his innocence and claims he can prove an alibi, but circumstances are against him, and he will probably be convicted of murder.

A young Indian named McLeod re siding near Shakopee was found near Hamilton station on the Omaha railroad track. The train had evidently run over him and his body was somewhat mutilated. He died soon after being found.

While Mr. and Mrs. G. Churchyard, of Dodge Center, were attending the state fair in St. Paul, their two children, aged 5 and 3 years, were left alone, crawled into a lot in the barn, set the hay on fire and perished in the flames.

The dead body of a man named Strane was found in a swamp in Oshkosh county, in a badly decomposed condition. The coroner's jury brought in a verdict that Strane came to his death by being struck on the head with a blunt instrument in the hands of parties unknown.

Workmen engaged in digging sewers in the streets of St. Paul ran across an extensive vein of peat which is said to be fully as high in quality as that of the peat bogs of Ireland. Large quantities are being carted away by the inhabitants to keep their toes warm the coming winter.

Mrs. Wright, of Luverne, was seriously burned about the hands and face while wrestling with a gasoline stove which had caught on fire. The plucky woman succeeded in carrying the stove from the kitchen to the back yard, saving her household goods and averting a considerable loss.

The team of Ferdinand Selkoe became frightened and upset the wagon containing his wife and two small children at Rochester. They were all thrown under the horses' feet, and Mrs. Selkoe was dragged about a hundred feet and received serious injuries. The children were badly scratched and the boy in falling cut a bad gash in his scalp.

Burglars broke into the general merchandise store of J. J. Simonson, at Rochester. They cracked a large safe, but were scared away before getting into the money chest. Mr. Simonson pays off for a large grain farm, and it was thought there was a large sum of money in the safe. All the tools used by the burglars were left which furnishes a good clue to the perpetrators.

Dr. Camp, of Brainerd, at the peril of his own life rescued two ladies from drowning in Long Lake. They were boat riding and fishing, and one of the ladies carried an enormous ed of clothing, which she had packed in a sack and which she had fastened to her waist.

FOR THE FARMER.

Para Notes.

He is wise who profits by his own experience, but he is wiser who also profits by the experience of others.

Signing your name before a stranger is not "bread cast upon the waters," but it is very sure to "return after many days."

Poor butter and poor cheese, for the low quality of which the maker cannot account, may sometimes be traced to impure water.

Constalks in the silo occupy but one-fifth the space they do in mow or stack; this is a very important consideration in favor of the silo.

It is desirable to freshen salt fish quickly, place it in plenty of cold water the fleshside down.

Suspend a small bag of charcoal in the cistern. It will have a purifying effect upon the water.

Ceilings that have been smoked with a kerosene lamp should be washed off with soda water.

Silver may be kept bright for months by being kept in an air-tight case with a good-sized piece of camphor.

Spare your temper by inverting the top of the fruit jar for a minute in hot water before attempting to remove it.

The haunts of black ants are less attractive to the bothersome insects when powdered borax is scattered over them.

It is very seldom that the proper stress is laid upon the thorough ventilation of the bedrooms and the arranging of the bed.

Advice from the medical attendant respecting diet, exercise and management in the sick room is often far preferable to medicine.

"Never scold your wife for crying," says Dr. Agnew. "So long as a woman cries, she will never do anything desperate, and she will have much more patience than a dry-eyed woman."

The labor of ironing is diminished when clothes are well shaken before hanging out, especially when a wringer removes the water. Fringed articles need special attention in this particular.

The French water-cases are sometimes made with a syrup of sugar and water boiled until it forms a fine crust, and the thumb and forefinger. This syrup contains four times as much sugar as water.

Miss Frances Graham French, of Washington, holds the position of linguist and translator in the bureau of education, and is engaged in the work of classifying 30,000 foreign books in twenty different languages.

One way of exterminating red ants is to moisten a sponge with water, scatter sugar over it and place on a shelf frequented by the pestiferous mites. It will soon be densely populated, then is the time to drop it into hot water.

The children are now in their cradles who will live to see pauperism and drunkenness swept away, like the hogs that hang over us for weeks till a strong breeze comes, and smite them with the scimitar of light and they are gone.—Mrs. Livermore.

A good work is being done in some of Boston's suburbs by women's societies supporting industrial schools during the long summer vacations. These schools are generally for girls, and teach sewing and needle arts, and in some cases fine cooking.

There is often waste of juice and sugar during the process of baking fruit pies. By rolling out an under paste an inch larger than the plate, and turning it over the fruit when the pie is filled the loss will be prevented. Wet with cold water before laying the top crust.

English girls are to be taught laundry work besides cooking in the boarding schools. A committee of the London school board and the city and guilds institute have just completed arrangements for making an experiment in this unique branch.

to say about cloaks in this issue.

Flakes of snow fell for a few mo-
ments in this city yesterday forenoon.

J. D. Barlow has moved with his
family back to Royalton, their former
home.

A year old daughter of John Be-
jumbas died of cholera infantum on
Saturday.

P. J. Pugh, of this city, has been
granted a patent on a pillow sham
adjuster.

The Brainerd base ball club played
the Como boys on Saturday beating
them 13 to 11.

The county fair to-day and to-
morrow should attract the attention
of every one.

Miss Maggie Johnson, of La Crosse,
Wis., is in this city visiting with Mrs.
J. F. McGinnis.

Rev. J. W. Field will address the
young men at the Y. M. C. A. rooms
next Sunday afternoon.

A. L. Hoffman goes to Sauk Centre
to-day to superintend the threshing
on his farm in that vicinity.

Chas. Greeves goes to Dakota this
week to superintend the threshing of
grain on his farm near Hillsboro.

Mrs. J. A. Davis came up from
Minneapolis Saturday evening for a
two weeks' visit with friends in this
city.

Mr. and Mrs. J. F. McGinnis are
feeling extremely pleased over the
arrival of a ten pound baby boy at
their house.

The Norwegian Lutheran church
has succeeded in engaging the ser-
vices of Rev. Mr. Revig, of Minne-
apolis, as pastor.

There will be preaching in the
Congregational church Sunday morning
and evening by the Rev. J. Kid-
der, of Faribault.

H. G. Ingersoll and wife arrived in
this city from Plover, Wis., on Sat-
urday evening and will spend the fall
and winter here.

Miss Emma Schoenmann, a sister
of Mrs. Cohen and Mrs. Patek, of
Chicago, is visiting relatives and
friends in Brainerd.

The new bank will be opened in
part of the building occupied by
Win. Hack, next door to the post-
office, instead of the room just west.

Oliver Russell, wife of Plummer
Russell, died on Saturday of dropsy.
Deceased was 36 years old and was
highly respected by a large circle of
friends.

Felix Graham wears a decidedly
more cheerful appearance since Mrs.
Graham returned from her visit to
Canada. She has been absent about
two months.

The Brainerd fire department ac-
companied by the Third Regiment
Band went to Little Falls yesterday
to participate in the annual tourna-
ment of the department of that city.

The Journal editor has no reason to
be grudgeful over our non-transferable
carbons. We would rather not
collect another subscription this year
than to go through the same opera-
tion again.

In consequence of the arrival of a
son at the residence of J. J. Kennedy
on Monday the intimate friends of
the father have been enjoying fragrant
Havanas. John's happiness knows
no bounds and he is receiving the
congratulations of his acquaintances.

Ed. Hazen returned to Brainerd on
Monday from an extended trip
through the Eastern states. During
his travels he met several former
Brainerdites, among whom was W.
H. Witt, H. M. Barron and Dr. Par-
sons.

Sheriff Spaulding accompanied
John Weden to the Insane Asylum
at St. Peter on Monday night. The
man was 43 years of age and lived at
Mille Laes where he has a family.
He was examined before the Probate
Court by Drs. Camp and Rosser.

An Invitation.
Ladies wishing to examine our
cloak stock are cordially invited to
call, as we take pleasure in displaying
these goods. Our stock is all in, and
in shape.

Frank French, who is serving a
term in the reform school, was brought
to Brainerd as a witness in the Tiff
trial, but as the trial was postponed
he was taken back. French was one
of the boys who was connected with
taking the scrap iron from the North-
ern Pacific.

Mrs. D. W. Whitford was quite
badly injured by a driving horse on
Saturday evening last. The animal
which had heretofore shown no
vicious tendencies bit her on the lip
and for a time it was feared that sur-
gical aid could not save the member.
She is now recovering and only for a
scar, her face will not be disfigured.

Fred Wieland with his wife and
their two children, arrived at Mt. Gil-
ead from Brainerd, Minnesota, Sat-
urday night, and will for some weeks
be with their Buckeye relatives. Fred
is still engaged in the printing busi-
ness, holding a half interest in the
stead old Brainerd Dispatch—Mt.
Gilead, O., Register.

A son of Mr. and Mrs. Geo. Keough
died on Saturday evening, Sept. 21st,
of spinal disease. The little fellow
was an exceedingly bright child and
was five years old at the time of his
death, the prime cause of which re-
sulted from an injury received when
the child was an infant. Funeral ser-
vices were held on Monday afternoon
from the Catholic church, Rev. Fr.
Watry officiating. The bereaved
parents have the sympathy of a large
circle of friends.

Sweet, Orr & Co.'s Overalls and
Jackets at Geo. N. Day's.

Geo. Perley arrived in Brainerd
from Kansas City yesterday to visit
his children who are stopping with
their aunt, Mrs. A. E. Veon.

Justice Fields passed through
Brainerd on Monday last on his way
to Massachusetts. This is the gentle-
man on whom Judge Terry made the
assault in California recently and
lost his life in consequence.

Wm. Mahood met with quite a
serious accident at the shops yester-
day which will lay him up for some
time. He was working near a circular
saw and in some manner his thumb
came in contact with it and the mem-
ber was nearly severed from his hand.

Some of the Brainerd boys who at-
tended the tournament at Little Falls
yesterday received quite a shaking tip
and had a narrow escape from serious
accident. The driver of the open
bus in which they were returning
from the fair grounds was driving at
a furious rate of speed and in turning
a corner he over-turned the wagon,
throwing the boys right and left
among a lot of oak stumps and trees.

Among those who were bruised was
Henry McGinn, L. W. Burrell and
John Lingnau. Mr. McGinn was un-
conscious for some minutes, he having
collided with a tree in his flight across
the commons. It is the greatest won-
der in the world that some of the
party was not seriously injured.

The District Court.
The jury cases were finished on
Wednesday and the jury were dis-
charged, but court is still in session
with court cases on trial which will
probably be finished to-day.

In the case of Carlson vs. Northern
Pacific road for damage for not being
allowed to travel on a certain ticket
bought of a scaler the jury returned
a verdict of \$225 for plaintiff.

In case of Jos. Koby vs. Benj.
Lovely, an action to recover on a
binder sold defendant, the plaintiff
was awarded \$150.

The case of A. L. Hoffman vs.
Northern Pacific road, in which the
plaintiff sued for \$1500 for being re-
fused passage on a ticket bought of a
broker was on trial Monday and Tues-
day. The jury awarded Mr. Hoffman
\$300 damages.

In the case of the State vs. Matt.
Schroeder, indicted for selling liquor
to Indians, the defendant was ac-
quitted. This is the second action of
the kind ever brought in this county.

The case of Joseph Tiff, indicted
for receiving stolen property, was
continued until next term on account
of not being able to secure important
witnesses, and the bond was fixed at
\$500.

Wm. Crummet came into court
Monday afternoon and withdrew the
plea of not guilty to the charge of
robbery, and on consent of the county
attorney pleaded guilty to the charge
of grand larceny in the second de-
gree.

T. Holdship, who was indicted for
indecent assault, pleaded guilty to the
charge on Wednesday.

New Hardware Firm.
W. J. & H. D. Powers have some-
thing to say to the readers of the
DISPATCH this week. They have
opened a complete stock of hardware
on Front street, next door to Loe-
y & Dean's, and are prepared to furnish
goods of that description to the
Brainerd public. The stock is all new
and an inspection is invited. A com-
plete line of tools, guns and ammu-
nition, cutlery, etc., is also among
their large variety of goods. A com-
petent tinner is in charge of their
jobbing department, and work will be
guaranteed to be first-class in all par-
ticulars.

Hymen's Capers.
Chester Atherton and Miss Carrie
Martin, both of this city were united
in marriage at the residence of Mr. F.
C. Hollenback, Bismarck, D. T., on
Tuesday of this week. They will re-
turn to Brainerd on the noon train,
Saturday, and will be tendered a re-
ception at the residence of the groom's
parents on Main street to-morrow eve-
ning. The couple are well and favor-
ably known in this city, the groom be-
ing engaged in the flour and feed
business on Fifth street, in connection
with his father, and is a young man of
good standing and highly respected
by his associates. The bride is a
charming young lady who has many
friends in Brainerd and elsewhere.
They will go to housekeeping im-
mediately at the corner of 7th and
Boulevard streets.

Mr. E. W. Kaley, of Hamline, and
Mrs. S. A. Gleason, of this city, were
united in marriage at Pipestone on
Tuesday of this week. The contract-
ing parties are both well known in
this city, the bride having resided
here for several years and the groom
was for some eight years employed
at the N. P. shops, but for the past
three years has been at Como where
he has a lucrative and pleasant po-
sition. The home of Mr. and Mrs.
Kaley will be at Hamline where a fine
residence has been built by the gentle-
man during the past summer. The
DISPATCH extends congratulations.

Mr. Alvin Eastman, of this city,
and Mrs. Libbie McGaffey, of Anoka,
were united in marriage at the latter
city on Monday last. The groom is
a gentleman of wide acquaintance in
this city and in other portions of the
state and the bride is a lady highly
respected in the locality from which
she comes. Brainerd will be their
future home as Mr. Eastman is fore-
man of the Mississippi and Rum
River Boom Co., which have their
warehouses located at this place.

The wedding of Mr. Rowland
Arundel and Miss Emily Walters is
announced to take place at the Epis-
copal church on Wednesday evening,
Oct. 9th, with a reception immediately
afterwards at No. 3, Seventh street.
The invitations have been issued.

Wm. Brown, of this city, and Miss
Nellie Randall, of Shell Prairie, were
united in marriage by the Rev. E. J.
Brownson, on Saturday evening at
the Baptist Parsonage.

ond, and Powers third.

THE AVERAGE.
Secretary Bain has made out a
table showing the average of the
different shooters during the summer
and we publish a synopsis of the re-
port below. The average is deter-
mined according to the number of
birds shot at, and while it looks at
first glance as though a shooter should
not get as much credit for shooting
only once, even if he made a good
score, the figures are so arranged as
to give a general idea and it can easily
be determined by looking at the num-
ber of birds shot at how much credit
the man is entitled to:

We have a Chief.
A special meeting of the city council
was held on Tuesday evening to
confirm the appointment of Mose
Derocch as acting chief, which was
done without opposition. Wm. Bar-
ron was appointed as patrolman and
confirmed. The matter of compelling
gamblers to pay a fine was discussed
but no action was taken. It is ex-
pected that a course will be adopted how-
ever, as several gentlemen expressed
their willingness to see such a plan in
operation for various reasons, and it
is understood that the Mayor is not
adverse to it. In the first place it is
understood to be next to impossible
to stop gaming and under strict rules
games are carried on in secret rooms
and the result is thought to be more
injurious than when the police can
watch the matter. There is one in-
stitution in the city which has sig-
nified a willingness to pay \$75 a month
fine. It is not known whether this
will be taken as a standard or not.

If you wish to breathe good fresh
air all winter use one of the Gold
Coin Ventilator Heater which takes
the air from out doors heats it and
forces it into your rooms at summer
heat, pure and fresh.

Fifth Annual County Fair.
The Fifth annual county fair of the
Crow Wing County Agricultural soci-
ety will be held, as heretofore an-
nounced, at the Fair grounds in this
city on Friday and Saturday of this
week. Although preparations for the
fair were delayed much longer than
they should have been, everything is
now in shape for a satisfactory exhibit
of products and for an interesting
series of exercises at the Driving Park.
Among the exercises will be the fol-
lowing, commencing at 2 o'clock each
day:

FRIDAY.
Double team race for a prize of \$50.
Two half-mile running races.
Exhibition drill by Co. K.

SATURDAY.
An interesting game of cricket.
Brainerd Gun Club shoot for medal.
Half-mile bare-back race.

There will be music on the grounds
both days, and each afternoon a train
will leave the depot for the grounds
at 1:30 and return at 6. Business
houses will close Saturday afternoon.
Admittance to grounds 25 cents, ex-
hibitors admitted free. A number of
the merchants will have exhibits on
the grounds.
